I have the honour to transmit to you herewith, for communication to your Government, the accompanying copy of a Board of Trade Circular, dated November, 1887, to which is annexed an Order of Her Majesty in Council, dated the 15th September, 1887, relating to Colonial Certificates of Competency granted to officers of British vessels.

This Order consolidates the Regulations now in force; gives to Colonial Certificates the same force as to similar certificates issued by the Board of Trade; modifies the provisions of the Order in Council passed on 29th June, 1882, and of all other Orders hitherto issued on the subject, by withdrawing the restrictions to the issue of a certificate of a lower grade, either temporarily or permanently, in the case of the suspension or cancellation of officers' certificates, and has been passed in consequence of representations received from the Government of Victoria relating to the hardship which might be inflicted upon men in the event of the suspension, &c., of their certificates (issued by the Board of Trade or some British possession) in the absence of power for the issue to them of temporary certificates of a lower grade without previous application being required to the authority which originally granted the certificates dealt with.

I have, &c.,

H. T. HOLLAND.

The Officer Administering the Government of Queensland.

Board of Trade, Marine Department, November, 1887.

INSTRUCTIONS TO OFFICERS IN BRITISH POSSESSIONS ABROAD.

"Merchant Shipping (Colonial) Act, 1869."

The annexed Order in Council, dated the fifteenth day of September, 1887, revokes all Orders previously issued relating to Colonial Certificates of Competency, and consolidates all the Regulations now in force relating to their use, issue, delivery, cancellation, and suspension.

As the Colonial Certificates of Competency referred to in the said Order in Council are to have the same force as the similar certificates granted by the Board of Trade in the United Kingdom, such a colonial certificate must be accepted as occupying in every respect the place of one of the latter, and as entitling its *bond fide* holder to act in the capacity stated in it, or any inferior (but not a superior) capacity in any British ship, all over the world, without the possession of a Board of Trade certificate.

Colonial certificates will have to be used, produced, and delivered at the times and on the occasions at and on which Imperial Certificates of Competency would have to be used, produced, and delivered.

When it appears from a certificate (Imperial or Colonial) officially produced to the officer that its owner possesses other certificates, their production also should be required, and if they are not produced their owner's explanation in writing should be demanded and forwarded to the Registrar-General of Seamen with the least possible delay.

Officers in British possessions abroad are empowered by Regulation 9, attached to the Order in Council, to demand, and if necessary to detain, any such colonial certificate which they have reason to believe has been improperly issued, or has been forged, altered, cancelled, suspended, or to which the person using it is not justly entitled.

Whenever this power is exercised, a report of the facts and circumstances must be sent by the officer, with the least possible delay, to either the Board of Trade or the Government of the possession in which the certificate was originally granted or may purport to have been granted, accordingly as communication may be easier and quicker.

As the withdrawal of a certificate would in some cases entail inconvenience, not only upon its possessor but also upon the owners of the ship and cargo, it is scarcely necessary to caution officers that the exercise of this power should only be resorted to when the evidence is perfectly clear; and if the ship is bound to the United Kingdom, and the report above mentioned has been sent to the possession in which the certificate was originally granted, the Board of Trade should nevertheless be informed of the facts.

Every case of death of a colonial certificate-holder which may come to the officer's knowledge should be reported without delay to the Government of the possession in which the certificate was granted.

The attention of officers and functionaries in British possessions abroad engaged in the conduct of official inquiries in wreck and discipline cases is directed to the fact that the certificates to which the Order in Council applies will be liable to cancellation and suspension in precisely the same way as certificates granted by the Board of Trade under the Merchant Shipping Acts, and by the same boards, courts, and tribunals. The provisions of "*The Merchant Shipping Act, 1854*," and "*The Merchant Shipping Act Amendment Act, 1862*," as to courts of inquiry, will therefore be applicable to the colonial certificates in question, with the exception of the provisions specified in the Order in Council.

Attention is further directed to the provision now for the first time inserted in Regulation 6 attached to the Order in Council, under which colonial authorities are empowered to issue a lower grade of certificate in lieu of a certificate cancelled or suspended by an official court of inquiry, if the court of inquiry make a recommendation to that effect.

It will be noticed that Regulation 8 attached to the Order in Council provides that the cancellation or suspension of a certificate shall involve cancellation or suspension of all the other certificates (if any) possessed by its owner. With the view of carrying this Regulation strictly into effect, it will be desirable that the Court should endeavour to ascertain and should specify in their decision the particulars of all the certificates possessed by any person whose conduct is the subject of investigation by them.

In cases of cancellation or suspension of such colonial certificates, copies of the report of the Court and of the evidence, together with the respective certificates, should be sent to the Governments of the British possessions by whom the several certificates possessed by the offender were originally granted. A full report upon the case and the evidence should, at the same time, be sent to the Board of Trade, as required by the Act, and the sentence, giving the number of each certificate dealt with and the possession in which it was granted, should be mentioned in it.

The holders of colonial certificates which are cancelled or suspended should be referred to the Government of the possession in which the certificate was originally granted, instead of to this Board, if they desire to appeal from the sentence or to apply for a mitigation of it.

These instructions must be understood as having reference only to the certificates referred to in the said Order in Council.

HENRY G. CALCRAFT,
Secretary.

THOMAS GRAY,
Assistant Secretary.

At the Court at Balmoral, the 15th day of September, 1887.

PRESENT:

THE QUEEN'S MOST EXCELLENT MAJESTY IN COUNCIL.

WHEREAS by "*The Merchant Shipping (Colonial) Act, 1869*," it is (amongst other things) enacted, that where the Legislature of any British possession provides for the examination of, and grant of Certificates of Competency to, persons intending to act as masters, mates, or engineers on board British ships, and the Board of Trade reports to Her Majesty that they are satisfied that the examinations are so conducted as to be equally efficient as the examinations for the same purpose in the United Kingdom under the Acts relating to Merchant Shipping, and that the certificates are granted on such principles as to show the like qualification and competency as those granted under the said Acts, and are liable to be forfeited for the like reasons and in the like manner, it shall be lawful for Her Majesty, by Order in Council:—

- (1) To declare that the said certificates shall be of the same force as if they had been granted under the said Acts;
- (2) To declare that all or any of the provisions of the said Acts which relate to Certificates of Competency granted under those Acts shall apply to the certificates referred to in the said Order;
- (3) To impose such conditions and to make such regulations with respect to the said certificates, and to the use, issue, delivery, cancellation, and suspension thereof, as to Her Majesty may seem fit, and to impose penalties not exceeding fifty pounds for the breach of such conditions and regulations.

And that upon the publication in the *London Gazette* of any such Order in Council as last aforesaid, the provisions therein contained shall, from a date to be mentioned for the purpose in such Order, take effect as if they had been contained in the Act; and that it shall be lawful for Her Majesty in Council to revoke any Order made as aforesaid:

And whereas by "*The Merchant Shipping Act, 1876*," it is provided that Her Majesty may, by Order in Council, revoke, alter, or add to any Order in Council made by Her under the Merchant Shipping Acts:

And whereas by various Orders in Council Her Majesty was pleased to declare that, subject to certain exceptions, conditions, and regulations therein contained or set out in the Schedules thereto, the colonial certificates granted as follows, viz.:—

- (1) On or after the 19th day of August, 1871, by the Minister of Marine and Fisheries in Canada, to persons intending to act as masters or mates on board British ships, and referred to in an Order in Council dated the 19th day of August, 1871;

- (2) On and after the 12th day of May, 1874, by the head of the Government of the possession of Malta and its dependencies, to persons intending to act as masters, mates, or engineers on board British ships, and referred to in an Order in Council dated the said 12th day of May, 1874;
- (3) On and after the 1st day of April, 1876, by the Steam Navigation Board of Victoria, to persons intending to act as masters, mates, or engineers of British sea-going steamships, and referred to in an Order in Council dated the 12th day of February, 1876;
- (4) On and after the 1st day of April, 1876, by the Governor for the time being of the possession of New Zealand, to persons intending to act as masters, mates, or engineers on board British ships, and referred to in an Order in Council dated the 12th day of February, 1876;
- (5) On and after the 1st day of April, 1876, by the Marine Board of the possession of New South Wales, to persons intending to act as masters, first mates, second mates, first-class engineers, or second-class engineers on board British ships, and referred to in an Order in Council dated the 12th day of February, 1876;
- (6) On and after the 1st day of April, 1876, by the Marine Board of the possession of South Australia, to persons intending to act as masters, first mates, only mates, second mates, first-class engineers, or second-class engineers on board British ships, and referred to in an Order in Council dated the 12th day of February, 1876;
- (7) On and after the 1st day of April, 1876, by the Governor of the possession of Tasmania, to persons intending to act as masters, mates, or engineers on board British ships, and referred to in an Order in Council dated the 17th day of May, 1876;
- (8) On and after the 27th day of June, 1876, by the Lieutenant-Governor of the possession of Bengal, to persons intending to act as masters, mates, or engineers on board British ships, and referred to in an Order in Council dated the said 27th day of June, 1876;
- (9) On and after the 14th day of May, 1877, by the Governor of the possession of Newfoundland, to persons intending to act as masters or mates on board British ships, and referred to in an Order in Council dated the said 14th day of May, 1877;
- (10) On and after the 11th day of July, 1877, by the Governor of the possession of Bombay, to persons intending to act as masters, mates, or engineers on board British ships, and referred to in an Order in Council dated the said 11th day of July, 1877;
- (11) On and after the 1st day of October, 1877, by the Marine Board of the possession of Queensland, to persons intending to act as masters, mates, or engineers on board British ships, and referred to in an Order in Council dated the 26th day of March, 1878;
- (12) On and after the 1st day of January, 1884, by the Governor of the possession of Hong Kong, to persons intending to act as masters, mates, or engineers on board British ships, and referred to in an Order in Council dated the 31st day of December, 1883;
- (13) On and after the 1st day of January, 1877, by the Minister of Marine and Fisheries in the possession of Canada, to persons intending to act as first-class engineers or second-class engineers of sea-going British ships, and referred to in an Order in Council dated the 10th day of November, 1886;

should be of the same force as if they had been granted under the said Acts, and subject to the conditions and regulations imposed and made by the Board of Trade, and set out in the Schedules to the said recited Orders in Council respectively:

And whereas by Orders in Council of the 29th day of June, 1882, and the 10th day of November, 1886, Her Majesty was pleased to rescind the said conditions and regulations (except in so far as the same related to Certificates of Competency granted to masters, mates, or engineers by the Governor of Hong Kong), and to substitute therefor the Conditions and Regulations set out in the schedule to the said last recited Order in Council, and numbered 1 to 10 respectively, and to declare that the same should apply to all Colonial Certificates granted under any of the said recited Orders:

And whereas it has been made to appear to Her Majesty that it is expedient that the condition and regulation numbered six, set out in the Schedules to the said recited Orders in Council, should be altered so as to allow, upon the recommendation of the Court or Authority which cancels or suspends a certificate, whether granted by the Board of Trade or by the Government of a British possession, the grant, to persons whose certificates have been cancelled or suspended under the provisions of the said recited Acts, or of any Act or Ordinance for the time being in force in any part of Her Majesty's Dominions, of a colonial certificate of a lower grade without the previous sanction of the Board of Trade or of the Authority by whom such cancelled or suspended certificate was originally granted, and that the conditions and regulations set out in the said recited Orders in Council should be rescinded and the said recited Orders in Council revoked, and a new Order in Council containing such modified and amended conditions and regulations substituted in lieu thereof:

Now, therefore, Her Majesty, by and with the advice and consent of Her Privy Council, is hereby pleased—

- (1) To declare that the Colonial Certificates of Competency granted—

- (a) By the Minister of Marine and Fisheries in Canada from and after the 19th day of August, 1871, to persons intending to act as masters or mates on board British sea-going ships, and from and after the 1st day of January, 1887, to persons intending to act as first-class engineers or second-class engineers on board such ships;

 - (3) To impose and make the conditions and regulations set out in the Schedule A hereto, numbered 1 to 10 respectively, with respect to the said Colonial Certificates of Competency, and to the use, issue, delivery, cancellation, and suspension thereof, and to impose for the breach of such conditions and regulations the penalties therein mentioned:

 - (5) To declare that this Order shall take effect in each of the said possessions immediately it is published in the said possessions enumerated in the Schedule B hereto, and that all certificates granted in the said possession subsequently to the dates named in the Schedule B, and before this Order comes into force, shall have the same effect, and be of the same value, and confer the same privileges on the holders thereof as if granted under this present Order:
 - (6) To direct that the said hereinbefore recited Orders in Council shall be revoked in each of the said possessions on the day on which this Order takes effect therein as provided in the preceding paragraph (5) hereof: provided, however, that the revocation of the said Orders in Council shall not affect or invalidate any Colonial Certificate of Competency previously granted thereunder, or affect the validity or invalidity of anything done under the said Orders in Council before this Order takes effect.

SCHEDULE A.

CONDITIONS and REGULATIONS with respect to the USE, ISSUE, DELIVERY, CANCELLATION, and SUSPENSION of COLONIAL CERTIFICATES of COMPETENCY.

Interpretation clause.

In the construction and for the purposes of these conditions and regulations, the following terms shall have the respective meanings hereinafter assigned to them, that is to say:—

"Colonial Certificate of Competency" shall mean a certificate of competency authorised to be granted by the legislative authority of a British possession to persons intending to act as masters, mates, or engineers of British ships on similar principles and conditions as those granted under the Imperial Acts relating to Merchant Shipping.

"Authority" shall mean the Governor, Lieutenant-Governor, Administrator, Head of the Government, Minister, Board, Body, or Corporation of or in any British possession for the time being authorised by the Legislature of such possession to grant Colonial Certificates of Competency.

REGULATIONS AND CONDITIONS.

1. A Colonial Certificate of Competency shall be on parchment, and as nearly as possible similar in shape and form to the corresponding certificate of competency for the foreign trade granted by the Board of Trade under the Acts relating to Merchant Shipping.

Name of possession to be inserted.

2. A Colonial Certificate of Competency shall have the name of the British possession in which the same is granted inserted prominently on its face and back.

Certificates to be numbered consecutively.

3. The Colonial Certificates of Competency granted in each British possession shall be numbered in consecutive order.

Lists of certificates granted, cancelled, &c., to be sent to Registrar-General of Seamen.

4. The Authority in each British possession shall furnish the Registrar-General of Seamen in London, from time to time, with accurate lists of all such Colonial Certificates of Competency as may be granted therein or as may for any cause whatsoever be cancelled, suspended, renewed, or re-issued; and shall also furnish him with duplicates of the applications for examination made by the persons to whom such certificates are granted.

Certificates to be granted only upon proof of service at sea.

5. A Colonial Certificate of Competency shall be granted only upon proof that the previous service at sea of the person applying for the same has been such as is required by the regulations for the time being in force in the United Kingdom with respect to certificates of the like grade.

Certificates of Competency granted contrary to this regulation, or upon any false, incorrect, or insufficient proof, certificate, or report of service, qualification, conduct, or character, shall be regarded as improperly granted.

Certificates not to be granted when former are cancelled.

6. A Colonial Certificate of Competency shall not be granted to any person who may have had a certificate, whether granted by the Board of Trade or by the Government of a British possession, cancelled or suspended under the provisions of the said Acts or of any Act or Ordinance for the time being in force in any part of Her Majesty's dominions, unless the same is a certificate of a lower grade than the one so cancelled or suspended and is issued upon the recommendation of the court or authority which cancelled or suspended the original certificate, or unless the period of suspension has expired, or unless intimation has been received from the Board of Trade, or the authority by whom the cancelled or suspended certificate was originally granted, to the effect that no objection to the grant of such colonial certificate is known to exist, or unless a new certificate has been granted to him by such board or authority; and in the last-named event no such Colonial Certificate of Competency shall be for a higher grade than the certificate so last granted as aforesaid.

Colonial Certificates of Competency granted contrary to this regulation shall be regarded as improperly granted.

Certificates improperly granted may be cancelled without formal investigation.

7. A Colonial Certificate of Competency which appears from information subsequently acquired, or otherwise, to have been improperly granted, whether in the above or in any other respect, may be cancelled by the authority by which the same was granted, or by the Board of Trade in the United Kingdom, without any formal investigation under "*The Merchant Shipping Act, 1854*," and the holder of such certificate shall thereupon deliver it to the Board of Trade or such authority or as they or either of them may direct, and in default thereof shall incur a penalty not exceeding £50, which shall be recoverable in the same manner as penalties imposed by the Acts relating to Merchant Shipping are thereby made recoverable.

Cancellation, &c., of a certificate shall involve cancellation of all the other certificates possessed by its owner.

8. Every decision with respect to the cancellation or suspension of a certificate pronounced by any board, court, or tribunal under the provisions of the said Acts, shall, unless otherwise directed, extend equally to all the Colonial Certificates at the time possessed by the person in respect of whom the decision is made, as well as to all certificates granted to him under any of the Acts relating to Merchant Shipping, and whether such certificates be specified in such decisions or not.

Certificates believed to be fraudulent may be demanded.

9. Any officer of the Board of Trade, or the Registrar-General of Seamen, or any of his officers, or a Superintendent of a Mercantile Marine Office, or a Consular Officer, or duly appointed Shipping Officer in a British possession, may demand the delivery to him of any Colonial Certificate of Competency which he has reason to believe has been improperly issued, or is forged, altered, cancelled, or suspended, or to which the person using it is not justly entitled, and may detain such certificate for a reasonable period for the purpose of making inquiries respecting such issue, forgery, alteration, cancellation, suspension, or possession; and any person who, without reasonable cause, neglects or refuses to comply with such demand shall incur a penalty not exceeding twenty pounds or its equivalent in local currency, which shall be recoverable in the same manner as penalties imposed by the Acts relating to Merchant Shipping are thereby made recoverable.

Suspended certificates to be re-issued only by Colony by which originally granted.

10. A Colonial Certificate of Competency which has from any cause been cancelled or suspended, shall be renewed or re-issued only by the authority by which the same was originally granted.

Déclaration.

Les Soussignés, Plénipotentiaires des Gouvernements Signataires de la Convention du 14 Mars, 1884, pour la protection des câbles sous-marins, ayant reconnu la convenance de préciser le sens des termes des Articles II et IV de la dite Convention, ont arrêté, d'un commun accord, la déclaration suivante :

Certains doutes s'étant élevés sur le sens du mot "volontairement" inséré dans l'Article II de la Convention du 14 Mars, 1884, il est entendu que la disposition de responsabilité pénale mentionnée dans le dit Article, ne s'applique pas aux cas de ruptures ou détériorations occasionnées accidentellement ou nécessairement en réparant un câble, alors que toutes les précautions ont été prises pour éviter ces ruptures ou détériorations.

Il est également entendu que l'Article IV de la Convention n'a eu d'autre but et ne doit avoir d'autre effet que de charger les Tribunaux compétents de chaque pays de résoudre, conformément à leurs lois et suivant les circonstances, la question de la responsabilité civile du propriétaire d'un câble, qui, par la pose ou la réparation de ce câble, cause la rupture ou la détérioration d'un autre câble, de même que les conséquences de cette responsabilité, si l'est reconnu qu'elle existe.

Fait à Paris, le 1^{er} Décembre, 1886, et le 23 Mars, 1887, pour l'Allemagne.

Les Soussignés, Plénipotentiaires des Gouvernements Signataires de la Convention du 14 Mars, 1884, pour la protection des câbles sous-marins,

Declaration.

THE undersigned, Plenipotentiaries of the Signatory Governments of the Convention of the 14th March, 1884, for the protection of submarine cables, having recognized the expediency of stating precisely the meaning of the terms of Articles II. and IV. of the said Convention, have agreed upon the following declaration by common consent:—

Certain doubts having been raised as to the meaning of the word "wilfully," used in Article II. of the Convention of the 14th March, 1884; it is understood that the provision in respect of penal responsibility contained in the said Article does not apply to cases of breakage or injury caused accidentally or of necessity in the repair of a cable, when all precautions have been taken to avoid such breakage or injury.

It is equally understood that Article IV. of the Convention had no other object and is to have no other effect than to empower the competent Tribunals of each country to decide, in conformity with their laws and according to the circumstances, the question of the civil responsibility of the owner of a cable, who, in laying or repairing his own cable, breaks or injures another cable, as well as the consequences of such responsibility if it is recognised as existing.

Done at Paris, the 1st December, 1886, and the 23rd March, 1887, for Germany.

1. La Convention Internationale du 14 Mars, 1884, pour la protection des câbles sous-marins, entrera en vigueur le 1^{er} Mai, 1888, sous la condition, toutefois, qu'à cette date ceux des Gouvernements Contractants qui n'ont pas encore adopté les mesures prévues par l'Article XII du dit Acte International se seront conformés à cette stipulation.

VOL. XLIII.]

TUESDAY, 14TH FEBRUARY, 1888.

[No. 32.]

The Treasury,
Brisbane, 10th February, 1888.

DIRECTIONS TO OFFICERS OF LOCAL AUTHORITIES.

THE following Amended Directions to Officers of Local Authorities as to the mode of keeping their Accounts, together with Forms of Books, have been approved by His Excellency the Governor in Council, and are published for general information.

S. W. GRIFFITH.

THE VALUATION REGISTER.

1. This Book is to contain a full and detailed record of the particulars of the several Properties of the District and their respective rateable values, and should be very carefully filled up by the person making the valuation.

2. The Properties valued are to be entered from the Valuation Sheets or Books as the valuations proceed, and these Entries must be numbered in consecutive order. Where a District is subdivided into Wards or Subdivisions, the particulars of each Ward or Subdivision are to be entered separately, with a distinct series of numbers, commencing in each case with number one,—one folio or more being left in the Register between the different Wards or Subdivisions.

3. The printed headings of the respective columns will be found a guide to the correct manner of keeping this Register; but as the Law with regard to the mode of valuing rateable properties has been lately materially altered, special attention is directed to the last eight columns marked (a) to (h) respectively.

4. TOWN

4. TOWN AND SUBURBAN LANDS.—(A) WHEN FULLY IMPROVED, columns *a*, *b*, and *c* are required to be filled up, showing respectively:—

- (a) Particulars of Lease, including the annual rental, or, if not let, the estimated reasonable annual rental ;*
- (b) The fair Capital Value of the fee-simple of the land ; and
- (c) Two-thirds of the Annual Rent ; or, if not let, two-thirds of the estimated annual rental.*

(B) WHEN NOT FULLY IMPROVED OR OCCUPIED, columns *a*, *c*, and either *e* or *f*, are to be filled up, showing respectively :—

- (a) Particulars of Lease or estimated annual rental,* as in the case of fully improved Properties ;
- (c) The fair Capital Value of the fee-simple of the land ; and
- (e) Two-thirds of the Annual Rent,* provided the same amounts to not less than 5 per cent. on the capital value of the fee-simple of the land ; or
- (f) Five per cent. on the Capital Value of the fee-simple of the land, should that amount exceed two-thirds of the annual rental.*

(C) WHEN UNIMPROVED AND UNOCCUPIED, columns *d* and *g* are to be filled up, showing respectively :—

- (d) The fair Capital Value of the fee-simple of the land ;
(g) The Annual Rateable Value calculated at not less than 8 nor more than 10 per cent. upon the fair capital value of the fee-simple of the land.

5. COUNTRY LANDS.—In the case of Country Lands, columns *d* and *g* are to be filled up, showing respectively :—

- (d) The Capital Value of the land estimated at the fair average value of unimproved land of the same quality in the same neighbourhood ;
- (g) The Annual Rateable Value of the same calculated at not less than 5 nor more than 8 per cent. upon the capital value.

6. RATEABLE LANDS HELD UNDER LEASE OR LICENSE from the Crown for pastoral purposes only, or as GRAZING FARMS under "*The Crown Lands Act of 1884*,"—In these cases column *h*, headed "*Rent paid to Crown*," is to be filled up.

7. In order to simplify calculations, it is particularly recommended that, in filling up the respective columns referring to the capital and annual rateable values, fractions of a pound be discarded, the nearest pound being inserted.

8. On completion of the valuation the valuer shall, immediately after the last entry in each Division of the Register, subscribe the following declaration, viz. :—

"The foregoing is the valuation made by me of the rateable properties situated in the
 "Subdivision† of _____ of the Division‡ of _____
 "returned this _____ day of _____ 188 .

" (Signed) A.B.,
" Valuer."

and shall then transmit the Register so signed to the Chairman.

THE REGISTER OF RATES RECEIVED, OR RATE CASH BOOK.

1. The "*Register of Rates received*," or "*Rate Cash Book*," is intended to form a daily record of all rates collected by the Board, whether "*General*," "*Special*," "*Separate*," or "*Special Loan*" Rates. In entering these from the official Receipts (which are to be bound in books and machine-numbered) care must be taken to fill up

* In the case of *Annual Rentals*, where Rates and Taxes are paid by the Tenant, such rates and taxes—not, however, including Consumers' Gas and Water Rates—are, for purposes of assessment, to be added to the Annual Rent. Estimated Rentals are to be calculated on the same principle.

† Or.....Ward.

‡ Or Municipality, or Shire council, as the case may be.

§ Officers of Local Authorities are reminded that receipts given by them, whether for Rates or otherwise, if for One Pound or over, require a Duty Stamp.

up the several columns in accordance with their respective headings. The first set of (three) money columns has been devoted to "*General*" Rates, those which immediately follow being left blank at the top for the purpose of enabling the particular rates collected, whether "*Watering*," "*Lighting*," "*Sewerage*," "*Drainage*" (or otherwise), to be filled in to meet the requirements of the Division.

2. At the close of each day the several columns showing the amounts received during the day are to be added up and the Totals transferred from the Rate Cash Book into the "*General Cash Book*" under the same distinguishing headings, both as to Subdivisions and Rates, as they appear in the former.

3. At the end of every month the Daily Totals of the several columns are to be summarised, the result being carried forward to the last page of the following month, and added to the Totals of that month. This procedure is to be continued until the termination of each half year, in such a way that at the end of June and December respectively the Total Amount of all Rates received during the preceding six months on account of each Subdivision, and each description of Rate, can be seen at a glance.

4. The several Rates received are to be posted *daily* from the Rate Cash Book into the Rate Book in the several columns under the heading of "*Particulars of Rates received*." These postings into the Rate Book should be carefully called over as soon after they are made as possible.

THE RATE BOOK.

1. The first seven columns of the Rate Book are to be filled up from the Valuation Register, care being taken that the several Wards or Subdivisions are kept separate in the Rate Book, as in the Register, and that the distinguishing numbers in the former correspond with those of the latter.* Should any annual rateable value be altered after these Entries have been made (in consequence of an appeal against the original valuation or otherwise), the sum first entered is to be neatly crossed out in red ink, and the amended value written in red ink above the figures struck out.

2. As soon as a rate has been made by the Local Authority, such rate, if "*General*," is to be entered in the space at the top of the eighth column, and if "*Special*," "*Separate*," or "*Special Loan*," in the space at the top of one of the columns immediately following; the sums for which each individual ratepayer thus becomes liable being inserted opposite his name in those columns respectively. Any arrears due from the previous year are to be brought forward into the column headed "*Arrears from last year*." This amount, added to the sums placed in the columns above mentioned, shows the indebtedness of the several ratepayers for the year on account of the properties named, which indebtedness is to be entered in the column headed "*Total*."

3. All sums received on account of Rates are to be posted daily from the Rate Cash Book into the columns headed "*Particulars of Rates received*." At the end of every year the total of the payments of each ratepayer is to be deducted from his gross indebtedness, and the Balance thus found to be due (if any) carried into the next column headed "*Arrears on*" (say 31 December, 1888). The different money columns, as soon as the entries in them are complete, are to be added up at the foot of every page, and the Total carried over to the next page. The summation of the last three money columns cannot, of course, be made until the close of the year.

4. From the construction of the Rate Book it is apparent that the sums entered in the eighth, ninth, tenth, and twelfth columns, when added together, must be equal to the amount entered in the column headed "*Total*," which again in its turn

* NOTE.—As there will probably be in some of the Districts several ratepayers of the same name, the distinguishing numbers above mentioned will be found of great assistance in referring to Properties, Payments, Notices, &c.

turn is equivalent to the Total of the seventeenth, twenty-first, and twenty-second columns. This test should be applied to the Totals of every page, and will be found valuable in proving the correctness of the respective entries and additions. Should any ratepayer, through inadvertence or otherwise, happen to have paid more than was due, such Cr. Balance is, at the end of the year, to be entered in the "*Arrears*" column *in red ink*, and must, of course, be taken into account when balancing the columns across, as shown above, by deducting the same from the Total at the bottom of the page.

5. At the beginning of a new year the arrears due on account of the previous year must be brought forward in accordance with section 2.*

6. As soon as the Local Authority has made a General, Separate, Special, or Special Loan rate, and the eighth, ninth, or tenth columns (as the case may be) have been duly filled in, the following declaration is to be inserted immediately after the last entry in each division of the Rate Book, viz. :—

"We, the undermentioned†

"certify that the foregoing is a true and correct assessment in accordance with the
 "[General, Separate, or Special] rate made this day of of our Lord
 "188 , after the rate of pence in the pound."

and such declaration is to be signed by not less than three Members of the Local Authority.

THE GENERAL CASH BOOK.

1. All receipts (excepting Loans, *vide* section 3), whether General, Special, Separate, or Special Loan Rates, Government Endowment, Tolls, or Collections from any other source, are to be entered on the Dr. or left-hand side of the General Cash Book, and deposited *daily*, if possible, in a bank to the credit of an account to be called (in the case of Divisional Boards) the "*Divisional Fund*."

2. The inner money column on the Dr. side is intended to be used in particularising the several daily collections making up a certain bank deposit. For instance, say on the 6th of February the sum of £158 13s. 0d. is banked, embracing the cash takings for that day, the entries should be made after the following manner, viz. :—

Date of Receipt.	Particulars.	Inner Column.	Amount of Deposit

3. All sums received from the Government by way of "*Loan*" are to be entered in a separate Cash Book and lodged to a special Banking Account; under no circumstances are they to be mixed up with the "*Divisional Fund*."

* NOTE.—It will be found more convenient in practice to refund any small Cr. Balances or over-payments than to carry them forward to the new year.

† "Members of the Board for the Division of.....," or "Councillors for the Shire of.....," or "Aldermen for the Municipality of.....," as the case may be.

4. As it is the practice of the Treasury to deduct the Annual Interest and Redemption under "*The Public Works Loans Act*" from the Endowment, care must be taken that the *full* Endowment (not the sum actually received) is passed through the Cash Book, credit being given for such annual Interest and Instalment on the right-hand side of the Cash Book. If, for instance, the Endowment due to the Local Authority is £2,000, and the Treasury deducts for Interest £180, and £20 for repayment of Principal, thus remitting only £1,800: "*Cash*" (or "*Bank*") is debited with £2,000, under the head of "*Government Endowment*" (viz., say, "No. 1 Subdivision," £800; "No. 2 Subdivision," £700; and "No. 3 Subdivision," £500); whilst, on the other hand, "*Cash*" (or "*Bank*") is credited with £180 under the head of "*Interest Account*," and with £20 under the head of "*Government Loan Account*," as if Cheques had been drawn for these two sums respectively in the ordinary way of business.

5. The Credit (or right-hand) side of the General Cash Book is intended to give full particulars of the *Expenditure* of the Local Authority.

6. Every payment of one pound sterling or over is to be made *by cheque*, signed by one or more members of the Local Authority, and countersigned by the clerk. To meet any small expenses that will from time to time arise, cheques may be drawn for "*Petty Cash*" purposes, and handed to the clerk for disbursement, who will keep a proper account of the same in a book to be called "*Petty Cash Book*."

7. All payments must be supported by properly certified and duly acquitted Vouchers. These should be numbered in consecutive order, docketed, and filed in such a way (say between binding boards) as to be protected from vermin, and be easily accessible for reference.

8. At the end of every month the Cash Book is to be *balanced*, and duly compared with the *Bank Pass Book* before the balance is carried down to the ensuing month. A statement showing the *Bank Adjustment*, viz., the Cash Book balance, the outstanding cheques (if any), and the balance as per Pass Book, should be added after the entries for the month are ruled off, in the following manner, viz. :—

THE GENERAL LEDGER.*

1. The line at the top of the page is to be filled up with the name of the Ledger Account. The entries on the Dr. side of the General and Loan Cash Books are to be posted to the Credit, and those on the Credit or right-hand side of the Cash Books, to the Debit of the respective Ledger Accounts.

2. The

* NOTE.—A separate Cash Book is to be kept for recording the receipt and expenditure of Government Loans, but a separate Ledger is not necessary.

2. The monthly Totals of both Receipts and Disbursements, as shown in the Cash Books, are to be posted in the Ledger to accounts to be opened in the name of the Bank or Banks keeping the "*Divisional Fund*" or "*Loan*" Accounts; taking care, however, that in these accounts (unlike those mentioned in the preceding paragraph) the receipts are Debited and the payments Credited.

3. The Receipts should be classified under such *Ledger Accounts* as the following, viz.:—"General Rate Account" (separate accounts being opened for each Subdivision on account of which the rates are received), "*Drainage Rate Account*" (the same), "*Government Endowment*" (the same), "*Government Loan Account*," "*Tolls*," &c., &c. With respect to Expenditure, the Ledger should of course exhibit, duly classified under distinctive heads, the disbursements on the various public Works and Services carried out by the Local Authority, also such accounts as "*Salaries*," "*Printing*," "*Law Expenses*," &c., &c. In case of Subdivisions, the Expenditure in each should be kept distinct, a separate Ledger Account being opened for each particular Work or Service.

4. All Loans obtained from Government are credited to "*Government Loan Account*" ("*Cash*" or "*Bank*" being debited with the same) and nothing but ACTUAL REPAYMENTS to the Treasury in terms of the provisions of "*The Public Works Loans Act*" must be debited to this Account, so that at any time the Balance remaining to the Credit of the Government Loan Account shows the indebtedness of the Local Authority to the Treasury. It thus follows that Expenditure from the Loan Fund MUST NOT BE CHARGED to the Government Loan Account but to the particular Work or Service to which the borrowed moneys have been applied.

5. A *Trial Balance* of the Ledger is to be taken out not less often than once in every three months. If the Ledger be correctly posted, and no error is made in taking out the Balances, the Total Dr. Balances will equal the Total Cr. Balances.

6. All Accounts denoting ordinary Revenue or Expenditure are, at the end of every year, to be written off against "*Profit and Loss Account*," which latter Account is adjusted by having its Cr. or Dr. Balance transferred to "*Capital Account*."

7. Accounts which indicate either "*Assets*" or "*Liabilities*" of the Local Authority are not written off in this manner; their Balances being duly carried forward to the next year. To the former would belong any work of a permanent nature; for instance, a "*Divisional Board Hall*," extensive "*Waterworks*" or "*Drainage Works*," "*Furniture*," "*Ferry Plant*," &c., &c.; the latter class would include such Accounts as "*Government Loan Account*" and the "*Bank Account*" (if overdrawn).

THE following REPORT of the REGISTRAR-GENERAL on the VITAL STATISTICS of the REGISTRY DISTRICT of BRISBANE, including the CITY and SUBURBS, for the Month of JANUARY, 1888, is published for general information.

B. B. MORETON.

BIRTHS.

During the month of January 181 births were registered in the Registry District of Brisbane, being 89 males and 92 females, the number being 28 more than in the previous month of December.

In the month of January, 1887, there were 184 births registered, the number for the corresponding month of this year being 3 less than in January of last year.

DEATHS.

There have been 83 deaths registered in the Registry District of Brisbane during the month—51 males and 32 females; the excess of births over deaths being 98.

The number of deaths was 16 less than was registered in the previous month of December.

In the month of January, 1887, there were 114 deaths registered; the number for the corresponding month of this year being 31 less than in January of last year.

TABLE showing ESTIMATED POPULATION, the NUMBER of BIRTHS and DEATHS of MALES and FEMALES Registered within and outside the MUNICIPALITY, in the REGISTRY DISTRICT of BRISBANE and SUBURBS, from the 1st to the 31st JANUARY, 1888; also TOTAL DEATHS under FIVE YEARS and under ONE YEAR, and PROPORTION of DEATHS under ONE YEAR to the TOTAL NUMBER of BIRTHS; also the PROPORTION of DEATHS under FIVE YEARS and under ONE YEAR to TOTAL DEATHS in the REGISTRY DISTRICT of BRISBANE and SUBURBS.

It will be seen that, within the municipality, 36·59 per cent. of the deaths were of children under five years; the rate in the part of the Registry District outside the municipality having been 47·62; the rate in that part of the suburbs outside of the Registry District 80·56; and the total rate for city and suburbs 53·78.

The true infantile mortality, or deaths under one year, as compared to births in the district, is seen to have been 10·89 per cent. within, and 12·50 per cent. outside, the municipality, 22·58 in that part of the suburbs outside of the Registry District, and the total rate for city and suburbs 15·33.*

The General Hospital, Lady Bowen Hospital, Children's Hospital, Diamantina Orphanage, Infants' Asylum, Lunatic Reception House, Lock Hospital, Gaol, Immigration Depot, and Convalescent Home, are all in the Registry District of Brisbane. The deaths occurring in these institutions numbered 22 during the month, or 18·49 per cent. of the total number of deaths in the District and Suburbs.

The total mortality of Brisbane and suburbs for the month of January, together with the mean shade temperature and mean atmospheric pressure, is seen as follows:—

a All values are corrected for Index Error, if necessary.

REMARKS.

Mean pressure was 0·118 lower, and mean temperature was 2·3 degrees higher, than during December. The mean vapour tension was 0·041 higher than in December, but the mean percentage of humidity remained the same as during November and last month. Dews were very frequent, and on 13 occasions gave values in the rain gauge above what is recognised as a "rainy day" by the rules of the Royal Meteorological Society; hence but 17 days of actual rain were recorded. Inasmuch, however, as dewfalls water the earth, it is orthodox to include them in the rainfall. Thunder and lightning on 4th and 24th; smoke-haze on 21st. The mean temperature of the Brisbane River, about 9 a.m., at Kangaroo Point, was 80·0. The prevailing easterly winds distinctly proved the existence of high pressure systems over New South Wales and the south-east coast of Australia.

January, 1888, compared with January, 1887.

Most striking differences are noted. Let us take the elements in turn, commencing with the pressures. The mean barometer was exactly one-tenth higher, mean temperature 2 degrees lower, the vapour tension 0·079 lower, and the humidity 4% lower than during January, 1887. The prevailing easterly winds were 11 times in excess of the prevailing easterly wind a year ago. Again, as to humidity, on no occasion did the hygrometer during January of the present year reach absolute saturation, whereas in the corresponding period of last year 100% was of frequent occurrence between the 21st and 22nd, and again on the 28th. But the most remarkable feature in the two periods under review is found in the rainfall, the total for January, 1887, being 21·615 inches more than that of January, 1888.

Now what do we gather from this comparison? Assuredly that Brisbane was on the north-north-eastern edge of high pressure nuclei, which became "jammed," so to speak, over New South Wales, the Riverina country, and the south-east coast, *without extending their slopes far over the Pacific*. Hence the higher pressure, the cooler and drier atmosphere brought about by an original downflow and outflow of cold air upon and from the anticyclonic or high pressure crests; hence again the excess of easterly winds flowing round the extreme northern edge of the high barometers, in beautiful accordance with Buys Ballot's law for the Southern Hemisphere; and hence, probably, the slight rainfall, inasmuch as the anticyclonic nuclei tended to "back off" any tropical cyclones from east-north-east. The extent of rain-bringing south-east winds was curtailed moreover by the narrow limits of the high barometers. It would be premature now to theorise on the causes which led up to effects produced. Patient observation and research extended over all Australasia, and even farther afield, will in good time bear fruit.

The Observatory, which was re-organised on 1st January, 1887, is conducted entirely in accordance with the Royal Meteorological Society's Rules.

Practical Engineering and Shipbuilding respectively will be considered an essential subject at Examinations, and in the lists showing the results of Examinations the numbers obtained in Practical subjects will be shown distinct from those obtained in Educational subjects. Students will not be eligible for entry, as Acting Assistant Engineers, or Acting Assistant Constructors, unless they obtain at least 50 per cent. of the total number of marks for Practical Engineering or Shipbuilding on their final Examination, and also display a competent knowledge of the subjects taught in the Dockyard Schools.

26. The Educational Examination of Students at the end of their sixth year of study will be a qualifying one, and the subjects will be separated into two divisions, compulsory and optional. The qualifying standard for passing will be 40 per cent. in the compulsory subjects.

Those who obtain 50 per cent., or above, of the combined total, will have the privilege of proceeding to the Royal Naval College on the first of October succeeding the Examination, where they will pass through a course of higher instruction. The Engineer Students will be entered as Acting Assistant Engineers on the first of July of each year, and the Students in Naval Construction will be entered as Acting Assistant Constructors. Engineer Students who obtain 40 per cent. in the compulsory educational subjects referred to in Paragraph 26, but less than 50 per cent. of the combined total above mentioned, and also pass the Examinations mentioned in Paragraphs 25, 27, and 30, will be entered as Acting Assistant Engineers in H.M. Navy on the first of

July of each year, and will be eligible to receive Third Class Certificates. They will not proceed to the Royal Naval College, but will remain in the Steam Reserve at Portsmouth to be appointed to H.M. ships as their services are required.

Confirmation of acting assistant engineers—Certificates obtained at the R.N. College.

32. All the Acting Assistant Engineers will be confirmed at the end of twelve months' time from the date of their entry into Her Majesty's Navy if their conduct and qualifications are reported satisfactory, and those at the Royal Naval College who obtain First and Second Class Certificates at the final Examination at the end of the first Session, will be allowed to count twelve months and six months' time respectively for promotion only.

On the completion of the third Session at the College they will be sent to Sea as Assistant Engineers, and, after one year's service at Sea, they will be considered eligible to fill vacancies occurring in the civil appointments at the Dockyards and at the Admiralty.

Acting assistant constructors' pay, &c.

36. Acting Assistant Constructors who, at the end of the first Session at the Royal Naval College, fail to obtain a satisfactory report of their qualifications, will be required to withdraw from the Service, and forfeit a moiety of the bond unless the failure be due to sickness. DEPARTMENT OF AGRICULTURE.

RUST-RESISTING WHEAT.

THE Department of Agriculture have for free distribution in quantities of half-bushels, amongst farmers who grow wheat upon their holdings, a certain amount of wheat which has stood many experiments for its rust-resisting qualities. The wheat, which has been experimented upon by Messrs. Joyce Bros., Dalby, and by Dr. Bancroft, is of three varieties—Indian Bearded, Indian Beardless, and White Wheat. All have been proved rust-resisting on high land, whilst the former has been tested on low scrub land. Subjoined is an extract from letters received on the subject. Applications for this wheat to be lodged with the Land Agents at Warwick, Toowoomba, Dalby, Roma, and Allora.

EXTRACT FROM LETTERS RELATIVE TO RUST-RESISTING WHEAT FOR DISTRIBUTION BY THE DEPARTMENT OF AGRICULTURE.

"From Joyce Bros., Cregmore, Dalby, to Under Secretary for Agriculture.

"There is no doubt as to the rust-proof qualities of the wheat, Dr. Bancroft having tested it for years, and his only doubt being the rich black soil of the Downs; and last year, which was a very rusty year, we tested between lines of very rusty specimens and it was perfectly clean. Some Victorian farmers who were here as delegates to inspect land pronounced it as the only perfectly clean straw they had seen in Queensland. Messrs. Kates and Hayes, of Allora and Warwick, have both certified to its being good milling wheat, and offered not only last year, but this, top market quotations for milling purposes, although it is well known that millers usually object to the ordinary samples of Indian wheat as being too vitreous; also, in a leader some time ago, *re* rust-proof wheat, in the *Warwick Argus*, special mention was made of the excellent quality of flour made from our samples of wheat by Mr. Hayes. We have also found the wheat very hardy, and although it has been a very dry spring here it yielded well."

Date of letter, 5th January, 1888.

At Southport, the twenty-first day of February, 1888.

PRESENT:

HIS EXCELLENCY THE GOVERNOR IN COUNCIL.

WHEREAS by an Act passed in the fiftieth year of Her Majesty's reign, intituled "*An Act to Amend the Laws relating to Quarantine*," it is amongst other things enacted, that when a ship arrives from beyond sea at any port or place in Queensland, on board of which there is, or has been, during the voyage, any infectious or contagious disease, the Governor in Council may make such Orders as may by him be deemed necessary with respect to the performance of Quarantine by the said ship and her passengers:

And whereas by an Order in Council made on the fifth ultimo, it was ordered that the Steamship "Bulimba," which had recently arrived from London, and on board of which the infectious disease known as Scarlet Fever then existed, should be placed in Quarantine, and that the said Steamship and the Passengers on board, other than those for Ports in the Colony north of Rockhampton and for the Port of Rockhampton, should perform Quarantine at the Quarantine Station at Peel Island:

Department of Public Lands,
Brisbane, 18th February, 1888.

PAYMENTS UNDER "THE CROWN LANDS ALIENATION ACT OF 1876"; AND ALSO UNDER "THE CROWN LANDS ACT OF 1884."

THE accompanying Schedules of the Payments due on the 31st March, upon Selections under the above-mentioned Acts, are published for general information; and it is hereby notified that the payment of rent on any Selection included in these Schedules or otherwise will not place the Selector in a better position to claim a title in the event of it coming within the knowledge of the Government that any other provisoes or conditions of the Act, or of the leases under which the lands are held, have been violated.

Failure to pay the amount due on or before the 31st March will render the Selector under the Act of 1876 liable to a penalty of 10 per cent. If rent and penalty are not paid within ninety days of the day upon which rent shall have fallen due the Selection becomes forfeited.

In the case of Agricultural or Grazing Farms held under the Act of 1884, if default is made by the Lessee in the payment of rent the lease shall be forfeited, but the Lessee may defeat the forfeiture by payment of the full annual rent within ninety days from the 31st March with the addition of a sum by way of penalty, calculated as follows, that is to say— if the rent is paid within thirty days five per centum is to be added, if the rent is paid within sixty days ten per centum is to be added, and if the rent is paid after sixty days fifteen per centum is to be added; but unless the whole of the rent together with such penalty is paid within ninety days from the appointed day the lease shall be absolutely forfeited.

The Selections under the Act of 1876 are included in separate Schedules, alphabetically arranged under the heading of each Land Agent's District, the Schedules of Agricultural and Grazing Farms held under "*The Crown Lands Act of 1884*" commencing at page 592.

DEPARTMENT OF AGRICULTURE.

RUST-RESISTING WHEAT.

THE Department of Agriculture have for free distribution in quantities of half-bushels, amongst farmers who grow wheat upon their holdings, a certain amount of wheat which has stood many experiments for its rust-resisting qualities. The wheat, which has been experimented upon by Messrs. Joyce Bros., Dalby, and by Dr. Bancroft, is of three varieties—Indian Bearded, Indian Beardless, and White Wheat. All have been proved rust-resisting on high land, whilst the former has been tested on low scrub land. Subjoined is an extract from letters received on the subject. Applications for this wheat to be lodged with the Land Agents at Warwick, Toowoomba, Dalby, Roma, and Allora.

EXTRACT FROM LETTERS RELATIVE TO RUST-RESISTING WHEAT FOR DISTRIBUTION BY THE DEPARTMENT OF AGRICULTURE.

"From Joyce Bros., Cregmore, Dalby, to Under Secretary for Agriculture.

"There is no doubt as to the rust-proof qualities of the wheat, Dr. Bancroft having tested it for years, and his only doubt being the rich black soil of the Downs; and last year, which was a very rusty year, we tested between lines of very rusty specimens and it was perfectly clean. Some Victorian farmers who were here as delegates to inspect land pronounced it as the only perfectly clean straw they had seen in Queensland. Messrs. Kates and Hayes, of Allora and Warwick, have both certified to its being good milling wheat, and offered not only last year, but this, top market quotations for milling purposes, although it is well known that millers usually object to the ordinary samples of Indian wheat as being too vitreous; also, in a letter some time ago, re rust-proof wheat, in the Warwick

Argus, special mention was made of the excellent quality of flour made from our samples of wheat by Mr. Hayes. We have also found the wheat very hardy, and although it has been a very dry spring here it yielded well."

Date of letter, 5th January, 1888.

PETER McLEAN,
Under Secretary for Agriculture.

ARTICLE I.

Les pays contractants sont constitués à l'état d'union pour la protection des droits des auteurs sur leurs œuvres littéraires et artistiques.

ARTICLE II.

Les auteurs ressortissant à l'un des pays de l'Union, ou leurs ayants cause, jouissent dans les autres pays pour leurs œuvres soit publiées dans un de ces pays, soit non publiées, des droits que les lois respectives accordent actuellement ou accorderont par la suite aux nationaux.

La jouissance de ces droits est subordonnée à l'accomplissement des conditions et formalités prescrites par la législation du pays d'origine de l'œuvre ; elle ne peut excéder dans les autres pays la durée de la protection accordée dans le dit pays d'origine.

Est considéré comme pays d'origine de l'œuvre, celui de la première publication, ou, si cette publication a lieu simultanément dans plusieurs pays de l'Union, celui d'entre eux dont la législation accorde la durée de protection la plus courte.

Pour les œuvres non publiées le pays auquel appartient l'auteur est considéré comme pays d'origine de l'œuvre.

ARTICLE III.

Les stipulations de la présente Convention s'appliquent également aux éditeurs d'œuvres littéraires ou artistiques publiées dans un des pays de l'Union, et dont l'auteur appartient à un pays qui n'en fait pas partie.

ARTICLE IV.

L'expression "œuvres littéraires et artistiques" comprend les livres, brochures, ou tous autres écrits ; les œuvres dramatiques ou dramatico-musicales, les compositions musicales avec ou sans paroles ; les œuvres de dessin, de peinture, de sculpture, de gravure ; les lithographies, les illustrations, les cartes géographiques ; les plans, croquis, et ouvrages plastiques relatifs à la géographie, à la topographie, à l'architecture ou aux sciences en général ; enfin toute production quelconque du domaine littéraire, scientifique, ou artistique, qui pourrait être publiée par n'importe quel mode d'impression ou de reproduction.

ARTICLE V.

Les auteurs ressortissant à l'un des pays de l'Union, ou leurs ayants cause, jouissent, dans les autres pays, du droit exclusif de faire ou d'autoriser la traduction de leurs ouvrages jusqu'à l'expiration de dix années à partir de la publication de l'œuvre originale dans l'un des pays de l'Union.

Pour les ouvrages publiés par livraisons, le délai de dix années ne compte qu'à dater de la publication de la dernière livraison de l'œuvre originale.

Pour les œuvres composées de plusieurs volumes publiés par intervalles, ainsi que pour les bulletins ou cahiers publiés par des Sociétés littéraires ou savantes ou par des particuliers, chaque volume, bulletin, ou cahier est, en ce qui concerne le délai de dix années, considéré comme ouvrage séparé.

Dans les cas prévus au présent Article, est admis comme date de publication, pour le calcul des délais de protection, le 31 Décembre de l'année dans laquelle l'ouvrage a été publié.

ARTICLE VI.

Les traductions licites sont protégées comme des ouvrages originaux. Elles jouissent, en conséquence, de la protection stipulée aux Articles II. et III. en ce qui concerne leur reproduction non autorisée dans les pays de l'Union.

Il est entendu que, s'il s'agit d'une œuvre pour laquelle le droit de traduction est dans le domaine public, le traducteur ne peut pas s'opposer à ce que la même œuvre soit traduite par d'autres écrivains.

ARTICLE VII.

Les articles de journaux ou de recueils périodiques publiés dans l'un des pays de l'Union peuvent être reproduits, en original ou en traduction, dans les autres pays de l'Union, à moins que les auteurs ou éditeurs ne l'aient expressément interdit. Pour les recueils, il peut suffire que l'interdiction soit faite d'une manière générale en tête de chaque numéro du recueil.

En aucun cas, cette interdiction ne peut s'appliquer aux articles de discussion politique ou à la reproduction des nouvelles du jour et des *faits divers*.

ARTICLE VIII.

En ce qui concerne la faculté de faire licitement des emprunts à des œuvres littéraires ou artistiques pour des publications destinées à l'enseignement ou ayant un caractère scientifique, ou pour des chrestomathies, est réservé l'effet de la législation des pays de l'Union et des arrangements particuliers existants ou à conclure entre eux.

ARTICLE IX.

Les stipulations de l'Article II. s'appliquent à la représentation publique des œuvres dramatiques ou dramatico-musicales, que ces œuvres soient publiées ou non.

Les auteurs d'œuvres dramatiques ou dramatico-musicales, ou leurs ayants cause, sont, pendant la durée de leur droit exclusif de traduction, réciproquement protégés contre la représentation publique non autorisée de la traduction de leurs ouvrages.

Les stipulations de l'Article II. s'appliquent également à l'exécution publique des œuvres musicales non publiées ou de celles qui ont été publiées, mais dont l'auteur a expressément déclaré sur le titre ou en tête de l'ouvrage qu'il en interdit l'exécution publique.

ARTICLE X.

Sont spécialement comprises parmi les reproductions illicites auxquelles s'applique la présente Convention, les appropriations indirectes non autorisées d'un ouvrage littéraire ou artistique, désignées sous des noms divers, tels que : *adaptations, arrangements de musique, &c.*, lorsqu'elles ne sont que la reproduction d'un tel ouvrage, dans la même forme ou sous une autre forme, avec des changements, additions, ou retranchements, non essentiels, sans présenter d'ailleurs le caractère d'une nouvelle œuvre originale.

Il est entendu que, dans l'application du présent Article, les Tribunaux des divers pays de l'Union tiendront compte, s'il y a lieu, des réserves de leurs lois respectives.

ARTICLE XI.

Pour que les auteurs des ouvrages protégés par la présente Convention soient, jusqu'à preuve contraire, considérés comme tels et admis, en conséquence, devant les Tribunaux des divers pays de l'Union à exercer des poursuites contre les contrefaçons, il suffit que leur nom soit indiqué sur l'ouvrage en la manière usitée.

Pour les œuvres anonymes ou pseudonymes, l'éditeur dont le nom est indiqué sur l'ouvrage est fondé à sauvegarder les droits appartenant à l'auteur. Il est, sans autres preuves, réputé, ayant cause de l'auteur anonyme ou pseudonyme.

Il est entendu, toutefois, que les Tribunaux peuvent exiger, le cas échéant, la production d'un certificat délivré par l'autorité compétente, constatant que les formalités prescrites, dans le sens de l'Article II., par la législation du pays d'origine, ont été remplies.

ARTICLE XII.

Toute œuvre contrefaite peut être saisie à l'importation dans ceux des pays de l'Union où l'œuvre originale a droit à la protection légale.

La saisie a lieu conformément à la législation intérieure de chaque pays.

ARTICLE XIII.

Il est entendu que les dispositions de la présente Convention ne peuvent porter préjudice, en quoi que ce soit, au droit qui appartient au Gouvernement de chacun des pays de l'Union de permettre, de surveiller, d'interdire, par des mesures de législation ou de police intérieure, la circulation, la représentation, l'exposition de tout ouvrage ou production à l'égard desquels l'autorité compétente aurait à exercer ce droit.

ARTICLE XIV.

La présente Convention, sous les réserves et conditions à déterminer d'un commun accord, s'applique à toutes les œuvres qui, au moment de son entrée en vigueur, ne sont pas encore tombées dans le domaine public dans leurs pays d'origine.

ARTICLE XV.

Il est entendu que les Gouvernements des pays de l'Union se réservent respectivement le droit de prendre séparément, entre eux, des arrangements particuliers, en tant que ces arrangements conféreraient aux auteurs ou à leurs ayants cause des droits plus étendus que ceux accordés par l'Union, ou qu'ils renfermeraient d'autres stipulations non contraires à la présente Convention.

ARTICLE XVI.

Un office international est institué sous le nom de *Bureau de l'Union Internationale pour la Protection des Œuvres Littéraires et Artistiques*.

Ce Bureau, dont les frais sont supportés par les Administrations de tous les pays de l'Union, est placé sous la haute autorité de l'Administration Supérieure de la Confédération Suisse, et fonctionne sous sa surveillance. Les attributions en sont déterminées d'un commun accord entre les pays de l'Union.

ARTICLE XVII.

La présente Convention peut être soumise à des révisions en vue d'y introduire les améliorations de nature à perfectionner le système de l'Union.

Les questions de cette nature, ainsi que celles qui intéressent à d'autres points de vue le développement de l'Union, seront traitées dans des Conférences qui auront lieu successivement dans les pays de l'Union entre les Délégués des dits pays.

Il est entendu qu'aucun changement à la présente Convention ne sera valable pour l'Union que moyennant l'assentiment unanime des pays qui la composent.

ARTICLE XVIII.

Les pays qui n'ont point pris part à la présente Convention et qui assurent chez eux la protection légale des droits faisant l'objet de cette Convention, seront admis à y accéder sur leur demande.

Cette accession sera notifiée par écrit au Gouvernement de la Confédération Suisse, et par celui-ci à tous les autres.

Elle emportera, de plein droit, adhésion à toutes les clauses et admission à tous les avantages stipulés dans la présente Convention.

ARTICLE XIX.

Les pays accédant à la présente Convention ont aussi le droit d'y accéder en tout temps pour leurs Colonies ou possessions étrangères.

Ils peuvent, à cet effet, soit faire une Déclaration générale par laquelle toutes leurs Colonies ou possessions sont comprises dans l'accession, soit nommer expressément celles qui y sont comprises, soit se borner à indiquer celles qui en sont exclues.

ARTICLE XX.

La présente Convention sera mise à exécution trois mois après l'échange des ratifications, et demeurera en vigueur pendant un temps indéterminé, jusqu'à l'expiration d'une année à partir du jour où la dénonciation en aura été faite.

Cette dénonciation sera adressée au Gouvernement chargé de recevoir les accessions. Elle ne produira son effet qu'à l'égard du pays qui l'aura faite, la Convention restant exécutoire pour les autres pays de l'Union.

ARTICLE XXI.

La présente Convention sera ratifiée, et les ratifications en seront échangées à Berne, dans le délai d'un an au plus tard.

En foi de quoi, les Plénipotentiaires respectifs l'ont signé et y ont apposé le cachet de leurs armes.

Article Additionnel.

Les Plénipotentiaires réunis pour signer la Convention concernant la création d'une Union Internationale pour la protection des œuvres littéraires et artistiques, sont convenus de l'Article Additionnel suivant, qui sera ratifié en même temps que l'acte auquel il se rapporte :

La Convention conclue à la date de ce jour n'affecte en rien le maintien des Conventions actuellement existantes entre les pays contractants, en tant que ces Conventions confèrent aux auteurs ou à leurs ayants cause des droits plus étendus que ceux accordés par l'Union, ou qu'elles renferment d'autres stipulations qui ne sont pas contraires à cette Convention.

En foi de quoi, les Plénipotentiaires respectifs ont signé le présent Article Additionnel.

Protocole de Clôture.

Au moment de procéder à la signature de la Convention conclue à la date de ce jour les Plénipotentiaires soussignés ont déclaré et stipulé ce qui suit :—

1. Au sujet de l'Article IV., il est convenu que ceux des pays de l'Union où le caractère d'œuvres artistiques n'est pas refusé aux œuvres photographiques s'engagent à les admettre, à partir de la mise en vigueur de la Convention conclue en date de ce jour, au bénéfice de ses dispositions. Il ne sont, d'ailleurs, tenus de protéger les auteurs des dites œuvres, sauf les arrangements internationaux existants ou à conclure, que dans la mesure où leur législation permet de le faire.

Il est entendu que la photographie autorisée d'une œuvre d'art protégée jouit, dans tous les pays de l'Union, de la protection légale, au sens de la dite Convention, aussi longtemps que dure le droit principal de reproduction de cette œuvre même, et dans les limites des Conventions privées entre les ayants droit.

2. Au sujet de l'Article IX., il est convenu que ceux des pays de l'Union dont la législation comprend implicitement, parmi les œuvres dramatico-musicales, les œuvres chorégraphiques, admettent expressément les dites œuvres au bénéfice des dispositions de la Convention conclue en date de ce jour.

Il est, d'ailleurs, entendu que les contestations qui s'élèveraient sur l'application de cette clause demeurent réservées à l'appréciation des Tribunaux respectifs.

3. Il est entendu que la fabrication et la vente des instruments servant à reproduire mécaniquement des airs de musique empruntés au domaine privé ne sont pas considérées comme constituant le fait de contrefaçon musicale.

4. L'accord commun prévu à l'Article XIV. de la Convention est déterminé ainsi qu'il suit:—

L'application de la Convention aux œuvres non tombées dans le domaine public au moment de sa mise en vigueur aura lieu suivant les stipulations y relatives contenues dans les Conventions spéciales existantes ou à conclure à cet effet.

A défaut de semblables stipulations entre pays de l'Union, les pays respectifs régleront, chacun pour ce qui le concerne, par la législation intérieure, les modalités relatives à l'application du principe contenu à l'Article XIV.

5. L'organisation du Bureau International prévu à l'Article XVI. de la Convention sera fixée par un Règlement que le Gouvernement de la Confédération Suisse est chargé d'élaborer.

La langue officielle du Bureau International sera la langue Française.

Le Bureau International centralisera les renseignements de toute nature relatifs à la protection des droits des auteurs sur leurs œuvres littéraires et artistiques. Il les coordonnera et les publiera. Il procédera aux études d'utilité commune intéressant l'Union, et rédigera, à l'aide des documents qui seront mis à sa disposition par les diverses Administrations, une feuille périodique, en langue Française, sur les questions concernant l'objet de l'Union. Les Gouvernements des pays de l'Union se réservent d'autoriser, d'un commun accord, le Bureau à publier une édition dans une ou plusieurs autres langues, pour le cas où l'expérience en aurait démontré le besoin.

Le Bureau International devra se tenir en tout temps à la disposition des membres de l'Union pour leur fournir, sur les questions relatives à la protection des œuvres littéraires et artistiques, les renseignements spéciaux dont ils pourraient avoir besoin.

L'Administration du pays où doit siéger une Conférence préparera, avec le concours du Bureau International, les travaux de cette Conférence.

Le Directeur du Bureau International assistera aux séances des Conférences et prendra part aux discussions sans voix délibérative. Il fera sur sa gestion au Rapport annuel qui sera communiqué à tous les membres de l'Union.

Les dépenses du Bureau de l'Union Internationale seront supportées en commun par les pays contractants. Jusqu'à nouvelle décision, elles ne pourront pas dépasser la somme de 60,000 fr. par année. Cette somme pourra être augmentée au besoin par simple décision d'une des Conférences prévues à l'Article XVII.

Pour déterminer la part contributive de chacun des pays dans cette somme totale des frais, les pays contractants et ceux qui adhèreraient ultérieurement à l'Union seront divisés en six classes contribuant chacune dans la proportion d'un certain nombre d'unités, savoir:—

Première Classe	25 unités.
Deuxième	„	20 „
Troisième	„	15 „
Quatrième	„	10 „
Cinquième	„	5 „
Sixième	„	3 „

Ces coefficients seront multipliés par le nombre des pays de chaque classe, et la somme des produits ainsi obtenus fournira le nombre d'unités par lequel la dépense totale doit être divisée. Le quotient donnera le montant de l'unité de dépense.

Chaque pays déclarera, au moment de son accession, dans laquelle des susdites classes il demande à être rangé.

L'Administration Suisse préparera le budget du Bureau et en surveillera les dépenses, fera les avances nécessaires et établira le compte annuel, qui sera communiqué à toutes les autres Administrations.

6. La prochaine Conférence aura lieu à Paris, dans la délai de quatre à six ans à partir d'entrée en vigueur de la Convention.

Le Gouvernement Français en fixera la date dans ces limites, après avoir pris l'avis du Bureau International.

7. Il est convenu que, pour l'échange des ratifications prévu à l'Article XXI., chaque Partie Contractante remettra un seul instrument, qui sera déposé, avec ceux des autres pays, aux archives du Gouvernement de la Confédération Suisse. Chaque partie recevra en retour un exemplaire du procès-verbal d'échange des ratifications, signé par les Plénipotentiaires qui y auront pris part.

Le présent Protocole de Clôture, qui sera ratifié, en même temps que la Convention conclue à la date de ce jour, sera considéré comme faisant partie intégrante de cette Convention, et aura même force, valeur, et durée.

En foi de quoi, les Plénipotentiaires respectifs l'ont revêtu de leur signature.

Haïti, dans la cinquième classe.
Italie, dans la première classe.
Suisse, dans la troisième classe.

Le Plénipotentiaire de la République de Libéria déclare que les pouvoirs qu'il a reçus de son Gouvernement l'autorisent à signer la Convention, mais qu'il n'a pas reçu d'instructions quant à la classe où ce pays entend se ranger au point de vue de sa part contributive aux frais du Bureau International. En conséquence, il réserve sur cette question la détermination de son Gouvernement, qui le fera connaître lors de l'échange des ratifications.

His Highness the Bey of Tunis, M. Louis Renault, Professor to the Faculty of Law of Paris, and to the Free School of Political Sciences, Chevalier of the Order of the Legion of Honour, and Chevalier of the Order of the Crown of Italy.

Who, having communicated to each other their respective full powers, found in good and due form, have agreed upon the following Articles:—

ARTICLE I.

The Contracting States are constituted into an Union for the protection of the rights of authors over their literary and artistic works.

ARTICLE II.

Authors of any of the countries of the Union, or their lawful representatives, shall enjoy in the other countries for their works, whether published in one of those countries or unpublished, the rights which the respective laws do now or may hereafter grant to natives.

The enjoyment of these rights is subject to the accomplishment of the conditions and formalities prescribed by law in the country of origin of the work, and cannot exceed in the other countries the term of protection granted in the said country of origin.

The country of origin of the work is that in which the work is first published, or, if such publication takes place simultaneously in several countries of the Union, that one of them in which the shortest term of protection is granted by law.

For unpublished works the country to which the author belongs is considered the country of origin of the work.

ARTICLE III.

The stipulations of the present Convention apply equally to the publishers of literary and artistic works published in one of the countries of the Union, but of which the authors belong to a country which is not a party to the Union.

ARTICLE IV.

The expression "literary and artistic works" comprehends books, pamphlets, and all other writing; dramatic or dramatico-musical works, musical compositions with or without words; works of design, painting, sculpture, and engraving; lithographs, illustrations, geographical charts; plans, sketches, and plastic works relative to geography, topography, architecture, or science in general; in fact, every production whatsoever in the literary, scientific, or artistic domain which can be published by any mode of impression or reproduction.

ARTICLE V.

Authors of any of the countries of the Union, or their lawful representatives, shall enjoy in the other countries the exclusive right of making or authorising the translation of their works until the expiration of ten years from the publication of the original works in one of the countries of the Union.

For works published in incomplete parts ("livraison") the period of ten years commences from the date of publication of the last part of the original work.

For works composed of several volumes published at intervals, as well as for bulletins or collections ("cahiers") published by literary or scientific Societies, or by private persons, each volume, bulletin, or collection is, with regard to the period of ten years, considered as a separate work.

In the cases provided for by the present Article, and for the calculation of the period of protection, the 31st December of the year in which the work was published is admitted as the date of publication.

ARTICLE VI.

Authorised translations are protected as original works. They consequently enjoy the protection stipulated in Articles II. and III. as regards their unauthorised reproduction in the countries of the Union.

It is understood that, in the case of a work for which the translating right has fallen into the public domain, the translator cannot oppose the translation of the same work by other writers.

ARTICLE VII.

Articles from newspapers or periodicals published in any of the countries of the Union may be reproduced in original or in translation in the other countries of the Union, unless the authors or publishers have expressly forbidden it. For periodicals it is sufficient if the prohibition is made in a general manner at the beginning of each number of the periodical.

This prohibition cannot in any case apply to articles of political discussion, or to the reproduction of news of the day or current topics.

ARTICLE VIII.

As regards the liberty of extracting portions from literary or artistic works for use in publications destined for educational or scientific purposes, or for chrestomathies, the matter is to be decided by the legislation of the different countries of the Union, or by special arrangements existing or to be concluded between them.

ARTICLE IX.

The stipulations of Article II. apply to the public representation of dramatic or dramatico-musical works, whether such works be published or not.

Authors of dramatic or dramatico-musical works, or their lawful representatives, are, during the existence of their exclusive right of translation, equally protected against the unauthorised public representation of translations of their works.

The stipulations of Article II. apply equally to the public performance of unpublished musical works, or of published works in which the author has expressly declared on the title-page or commencement of the work that he forbids the public performance.

ARTICLE X.

Unauthorised indirect appropriations of a literary or artistic work, of various kinds, such as *adaptations, arrangements of music, &c.*, are specially included amongst the illicit reproductions to which the present Convention applies, when they are only the reproduction of a particular work, in the same form, or in another form, with non-essential alterations, additions, or abridgments, so made as not to confer the character of a new original work.

It is agreed that, in the application of the present Article, the tribunals of the various countries of the Union will, if there is occasion, conform themselves to the provisions of their respective laws.

ARTICLE XI.

In order that the authors of works protected by the present Convention shall, in the absence of proof to the contrary, be considered as such, and be consequently admitted to institute proceedings against pirates before the Courts of the various countries of the Union, it will be sufficient that their name be indicated on the work in the accustomed manner.

For anonymous or pseudonymous works, the publisher whose name is indicated on the work is entitled to protect the rights belonging to the author. He is, without other proof, reputed the lawful representative of the anonymous or pseudonymous author.

It is, nevertheless, agreed that the tribunals may, if necessary, require the production of a certificate from the competent authority to the effect that the formalities prescribed by law in the country of origin have been accomplished, as contemplated in Article II.

ARTICLE XII.

Pirated works may be seized on importation into those countries of the Union where the original work enjoys legal protection.

The seizure shall take place conformably to the domestic law of each State.

ARTICLE XIII.

It is understood that the provisions of the present Convention cannot in any way derogate from the right belonging to the Government of each country of the Union to permit, to control, or to prohibit, by measures of domestic legislation or police, the circulation, representation, or exhibition of any works or productions in regard to which the competent authority may find it necessary to exercise that right.

ARTICLE XIV.

Under the reserves and conditions to be determined by common agreement,* the present Convention applies to all works which at the moment of its coming into force have not yet fallen into the public domain in the country of origin.

* See paragraph 4 of Final Protocol, p. 742.

ARTICLE XV.

It is understood that the Governments of the countries of the Union reserve to themselves respectively the right to enter into separate and particular arrangements between each other, provided always that such arrangements confer upon authors or their lawful representatives more extended rights than those granted by the Union, or embody other stipulations not contrary to the present Convention.

ARTICLE XVI.

An international office is established, under the name of "Office of the International Union for the Protection of Literary and Artistic Works."

This office, of which the expenses will be borne by the Administrations of all the countries of the Union, is placed under the high authority of the Superior Administration of the Swiss Confederation, and works under its direction. The functions of this office are determined by common accord between the countries of the Union.

ARTICLE XVII.

The present Convention may be submitted to revisions, in order to introduce therein amendments calculated to perfect the system of the Union.

Questions of this kind, as well as those which are of interest to the Union in other respects, will be considered in Conferences to be held successively in the countries of the Union by delegates of the said countries.

It is understood that no alteration in the present Convention shall be binding on the Union except by the unanimous consent of the countries composing it.

ARTICLE XVIII.

Countries which have not become parties to the present Convention, and which grant by their domestic law the protection of rights secured by this Convention, shall be admitted to accede thereto on request to that effect.

Such accession shall be notified in writing to the Government of the Swiss Confederation, who will communicate it to all the other countries of the Union.

Such accession shall imply full adhesion to all the clauses and admission to all the advantages provided by the present Convention.

ARTICLE XIX.

Countries acceding to the present Convention shall also have the right to accede thereto at any time for their Colonies or foreign possessions.

They may do this either by a general declaration comprehending all their Colonies or possessions within the accession, or by specially naming those comprised therein, or by simply indicating those which are excluded.

ARTICLE XX.

The present Convention shall be put in force three months after the exchange of the ratifications, and shall remain in effect for an indefinite period, until the termination of a year from the day on which it may have been denounced.

Such denunciation shall be made to the Government authorised to receive accessions, and shall only be effective as regards the country making it, the Convention remaining in full force and effect for the other countries of the Union.

ARTICLE XXI.

The present Convention shall be ratified, and the ratifications exchanged at Berne, within the space of one year at the latest.

In witness whereof, the respective Plenipotentiaries have signed the same, and have affixed thereto the seal of their arms.

Final Protocol.

IN proceeding to the signature of the Convention concluded this day, the undersigned Plenipotentiaries have declared and stipulated as follows:—

1. As regards Article IV., it is agreed that those countries of the Union where the character of artistic works is not refused to photographs, engage to admit them to the benefits of the Convention concluded to-day, from the date of its coming into effect. They are, however, not bound to protect the authors of such works further than is permitted by their own legislation, except in the case of international engagements already existing, or which may hereafter be entered into by them.

It is understood that an authorised photograph of a protected work of art shall enjoy legal protection in all the countries of the Union, as contemplated by the said Convention, for the same period as the principal right of reproduction of the work itself subsists, and within the limits of private arrangements between those who have legal rights.

2. As regards Article IX., it is agreed that those countries of the Union whose legislation implicitly includes choreographic works amongst dramatico-musical works, expressly admit the former works to the benefits of the Convention concluded this day.

It is, however, understood that questions which may arise on the application of this clause shall rest within the competence of the respective tribunals to decide.

3. It is understood that the manufacture and sale of instruments for the mechanical reproduction of musical airs which are copyright, shall not be considered as constituting an infringement of musical copyright.

4. The common agreement alluded to in Article XIV. of the Convention is established as follows:—

The application of the Convention to works which have not fallen into the public domain at the time when it comes into force, shall operate according to the stipulations on this head which may be contained in special Conventions either existing or to be concluded.

In the absence of such stipulations between any countries of the Union, the respective countries shall regulate, each for itself, by its domestic legislation, the manner in which the principle contained in Article XIV. is to be applied.

5. The organisation of the International Office established in virtue of Article XVI. of the Convention shall be fixed by a Regulation which shall be drawn up by the Government of the Swiss Confederation.

The official language of the International Office will be French.

The International Office will collect all kinds of information relative to the protection of the rights of authors over their literary and artistic works. It will arrange and publish such information. It will study questions of general utility likely to be of interest to the Union, and, by the aid of documents placed at its disposal by the different Administrations, will edit a periodical publication in the French language treating questions which concern the Union. The Governments of the countries of the Union reserve to themselves the faculty of authorising, by common accord, the publication by the Office of an edition in one or more other languages if experience should show this to be requisite.

The International Office will always hold itself at the disposal of members of the Union, with the view to furnish them with any special information they may require relative to the protection of literary and artistic works.

The Administration of the country where a Conference is about to be held, will prepare the programme of the Conference with the assistance of the International Office.

The Director of the International Office will attend the sittings of the Conferences, and will take part in the discussions without a deliberative voice. He will make an annual report on his administration, which shall be communicated to all the members of the Union.

The expenses of the Office of the International Union shall be shared by the Contracting States. Unless a fresh arrangement be made, they cannot exceed a sum of 60,000 fr. a-year. This sum may be increased by the decision of one of the Conferences provided for in Article XVII.

The share of the total expense to be paid by each country shall be determined by the division of the Contracting and acceding States into six classes, each of which shall contribute in the proportion of a certain number of units, viz.:—

First Class	25 units.
Second „	20 „
Third „	15 „
Fourth „	10 „
Fifth „	5 „
Sixth „	3 „

These coefficients will be multiplied by the number of States of each class, and the total product thus obtained will give the number of units by which the total expense is to be divided. The quotient will give the amount of the unity of expense.

Each State will declare, at the time of its accession, in which of the said classes it desires to be placed.

The Swiss Administration will prepare the Budget of the Office, superintend its expenditure, make the necessary advances, and draw up the annual account, which shall be communicated to all the other Administrations.

6. The next Conference shall be held at Paris between four and six years from the date of the coming into force of the Convention.

The French Government will fix the date within these limits after having consulted the International Office.

7. It is agreed that, as regards the exchange of ratifications contemplated in Article XXI., each Contracting Party shall give a single instrument, which shall be deposited, with those of the other States, in the Government archives of the Swiss Confederation. Each party shall receive in exchange a copy of the *procès-verbal* of the exchange of ratifications, signed by the Plenipotentiaries present.

The present Final Protocol, which shall be ratified with the Convention concluded this day, shall be considered as forming an integral part of the said Convention, and shall have the same force, effect and duration

In witness whereof the respective Plenipotentiaries have signed the same.

Procès-verbal of Signature.

The undersigned Plenipotentiaries, assembled this day to proceed with the signature of the Convention with reference to the creation of an International Union for the protection of literary and artistic works, have exchanged the following declarations:—

1. With reference to the accession of the Colonies or foreign possessions provided for by Article XIX. of the Convention:

The Plenipotentiaries of His Catholic Majesty the King of Spain reserve to the Government the power of making known His Majesty's decision at the time of the exchange of ratifications.

The Plenipotentiary of the French Republic states that the accession of his country carries with it that of all the French Colonies.

The Plenipotentiaries of Her Britannic Majesty state that the accession of Great Britain to the Convention for the protection of literary and artistic works comprises the United Kingdom of Great Britain and Ireland, and all the Colonies and foreign possessions of Her Britannic Majesty.

At the same time they reserve to the Government of Her Britannic Majesty the power of announcing at any time the separate denunciation of the Convention by one or several of the following Colonies or possessions, in the manner provided for by Article XX. of the Convention, namely:—

India, the Dominion of Canada, Newfoundland, the Cape, Natal, New South Wales, Victoria, Queensland, Tasmania, South Australia, Western Australia, and New Zealand.

2. With respect to the classification of the countries of the Union having regard to their contributory part to the expenses of the International Bureau (No. 5 of the Final Protocol):

The Plenipotentiaries declare that their respective countries should be ranked in the following classes, namely:—

Germany in the first class.
Belgium in the third class.
Spain in the second class.
France in the first class.
Great Britain in the first class.
Haiti in the fifth class.
Italy in the first class.
Switzerland in the third class.
Tunis in the sixth class.

The Plenipotentiary of the Republic of Liberia states that the powers which he has received from his Government authorise him to sign the Convention, but that he has not received instructions as to the class in which his country proposes to place itself with respect to the contribution to the expenses of the International Bureau. He therefore reserves that question to be determined by his Government, who will make known their intention on the exchange of ratifications.

In witness whereof, the respective Plenipotentiaries have signed the present *procès-verbal*.

DEPARTMENT OF AGRICULTURE.

PRODUCERS are invited to forward to the Department of Agriculture in Brisbane, small quantities of any specially fine samples of Wheat, Maize, Sugar, Tobacco, Rice, Cotton, or other Farm Produce grown in Queensland, such as will keep in a dry state, and are suitable for exhibition in small quantities. The wheat should be in the ear, with the straw attached, as well as in the grain; the maize in grain and in cob; the cotton ginned and unginned; the wool in the grease and scoured.

Information about the land on which the farm produce is grown will be acceptable, together with samples of the soil for analysis where this may be considered advisable.

In all cases the names of the producers, and the locality where grown, should be attached to the exhibits.

PETER McLEAN,
Under Secretary for Agriculture.

DEPARTMENT OF AGRICULTURE.

THE Department of Agriculture will give half bushels of Rust-Resisting Seed Wheat to Growers who will engage carefully to cultivate the seed, and to send in a report of its growth, with samples of produce, to the Department. There are three kinds to be thus distributed, viz.:—Indian Bearded, Indian Beardless, and White Wheat. These have proved the best out of some twenty varieties, having stood the test of many careful experiments made by Dr. Bancroft, who introduced them to Queensland, and has had them further tried by practical farmers on the Darling Downs. All are found to be rust-resisting on the high lands, and the first-named of the three varieties has stood the test on the low-lying and scrub lands of the colony.

Applications for the said Wheat should be made to the Land Agents at Warwick, Toowoomba, Dalby, Roma, and Allora.

PETER McLEAN,
Under Secretary for Agriculture.

DEPARTMENT OF AGRICULTURE.

RUST-RESISTING WHEAT.

THE Department of Agriculture have for free distribution in quantities of half-bushels, amongst farmers who grow wheat upon their holdings, a certain amount of wheat which has stood many experiments for its rust-resisting qualities. The wheat, which has been experimented upon by Messrs. Joyce Bros., Dalby, and by Dr. Bancroft, is of three varieties—Indian Bearded, Indian Beardless, and White Wheat. All have been proved rust-resisting on high land, whilst the former has been tested on low scrub land. Subjoined is an extract from letters received on the subject. Applications for this wheat to be lodged with the Land Agents at Warwick, Toowoomba, Dalby, Roma, and Allora.

EXTRACT FROM LETTERS RELATIVE TO RUST-RESISTING WHEAT FOR DISTRIBUTION BY THE DEPARTMENT OF AGRICULTURE.

"From Joyce Bros., Cregmore, Dalby, to Under Secretary for Agriculture.

"There is no doubt as to the rust-proof qualities of the wheat, Dr. Bancroft having tested it for years, and his only doubt being the rich black soil of the Downs; and last year, which was a very rusty year, we tested between lines of very rusty specimens and it was perfectly clean. Some Victorian farmers who were here as delegates to inspect land pronounced it as the only perfectly clean straw they had seen in Queensland. Messrs. Kates and Hayes, of Allora and Warwick, have both certified to its being good milling wheat, and offered not only last year, but this, top market quotations for milling purposes, although it is well known that millers usually object to the ordinary samples of Indian wheat as being too vitreous; also, in a leader some time ago, *re* rust-proof wheat, in the *Warwick Argus*, special mention was made of the excellent

quality of flour made from our samples of wheat by Mr. Hayes. We have also found the wheat very hardy, and although it has been a very dry spring here it yielded well."

Date of letter, 5th January, 1888.

PETER McLEAN,
Under Secretary for Agriculture.

TO INTENDING SELECTORS.

Any of the above Farms may be converted into a Freehold, at the option of the selector, by five years' continuous and *bonâ fide* personal residence, the making of improvements of a total value in the five years at the rate of not less than ten shillings an acre, and the payment of rent at the rate of sixpence an acre annually. That is, five annual payments of sixpence, amounting in all to HALF-A-CROWN an acre, in addition to the survey and deed fees, will secure the fee-simple of the land, the conditions of residence and improvement as above shown being fulfilled. The survey-fee may be paid in five equal annual instalments.

These Farms adjoin the Village or Township of Taabinga, and any Selector of a Farm is entitled to one of the Portions in the Township, of half-an-acre or less, without any further payment.

The value of any improvements made upon the portions of the Township will be reckoned as part value of the improvements required to be made upon the Farms, but not to a greater extent than one-fifth of the rate of ten shillings per acre required on the Farms.

As the Township portions are reckoned as parts of the Farms, selectors may live either on the Town Portions or on the Farms, in order to fulfil the requirements of *bonâ fide* personal and continuous residence.
